China Cord Blood gets US accreditation

Singapore: Guangdong subsidiary of China Cord Blood Corporation, a provider of cord blood collection, laboratory testing, hematopoietic stem cell processing, and stem cell storage services, is accredited by American Association of Blood Banks (AABB).

"AABB is the world's most respected standard setting organization in cord blood banking. Facilities undergo a stringent accreditation process that includes auditing activities from client education and obtainment of cord blood, processing, testing and storage," said Ms Ting Zheng, chief executive officer, CCBC, "We are proud that Guangdong Cord Blood Bank has become AABB-accredited. CCBC will continue to maintain the highest standards of quality and strive to secure optimal healthcare alternatives for our clients' children."
